

Custom Education

Not all organizations have the same needs. Our customers come in different sizes, sometimes from different cultures and oftentimes with different objectives. At **BlueSynergy**, we realize that our course menu may not fit your exact needs. No worries. Other than the accredited courses, we can work with you to adjust our menu courses to fit your needs. Just let us know and we will do our best to accommodate. We can also create courses specifically for your organization. We know healthcare. We know that the requirements can change weekly and often, your objectives and priorities change to meet this new requirements. At **BlueSynergy**, we will work with you to create custom courses that will meet your needs.

Custom courses maximize your training time by ensuring that the content is specific to your organizational needs. These courses can be traditional classroom training, virtual training, computer based training or a combination of these.. We can create these as a one-time event or we can help you keep current of any changes that may affect your course content. Ask us about licensing custom courses.

Personnel Certification

Do you have certified personnel in your organization? If you have need for certifications for any of your personnel and need the training and testing to make that happen, you are on the right web page. **BlueSynergy** can create the certification training based on your requirements. We can then custom create a web-based module for testing based on the training objectives. We will utilize the principles of ISO/IEC 17024 in this process to ensure we meet your intent for the certification. Your certified personnel will then demonstrate the competencies that you desire. Some examples of your organizations' own certification include: internal quality auditors, audit program manager, basic quality tools (such as root cause analyses, risk analysis, etc.) and Quality System Management Specialists.
